

1. Identification

Supplier: JNA Collective Co Pty Ltd
PO Box 7495
Loganholme QLD 4129 Australia
Emergency contact: info@jnacollective.com.au
Poisons Information (Australia): 13 11 26

2. Hazard(s) Identification

GHS classification:

No hazardous classification identified in the available supplier technical information.

Hazards:

No specific hazards identified under normal cosmetic handling conditions based on available supplier information.

Precautionary statements:

- Use good industrial hygiene practices.
- Avoid contact with eyes.
- Wash hands after handling.
- Use appropriate personal protective equipment when handling large quantities.
- If in eyes: Rinse cautiously with water for several minutes. Seek medical advice if irritation persists.

3. Composition/Information on Ingredients

Substance/mixture: Substance

Ingredient	Concentration
Polyglyceryl-10 Laurate	≥99% as supplied.

4. First Aid Measures

Eye contact:

Rinse cautiously with water or eyewash solution. Seek medical advice if irritation occurs and persists.

Skin contact:

Wash with water and mild soap if necessary.

Inhalation:

Not expected to present a significant inhalation hazard under normal handling conditions.

Ingestion:

Rinse mouth. Seek medical advice if unwell.

5. Firefighting Measures

Suitable extinguishing media:

Use extinguishing media appropriate to the surrounding fire.

Specific hazards:

No specific firefighting hazards provided in the available supplier documentation.

Protective equipment:

Use standard protective equipment appropriate to the surrounding fire conditions.

6. Accidental Release Measures

Personal precautions:

Wear appropriate protective equipment.

Spill response:

Contain spill. Collect into a suitable clean, dry, covered container where practicable. Absorb remaining material with suitable inert absorbent material and clean the affected area.

Environmental precautions:

Avoid uncontrolled release to waterways.

7. Handling and Storage

Handling:

No special handling requirements identified for normal use. Use good industrial hygiene practices and avoid contamination.

Storage:

Store tightly sealed in a cool, dry place away from direct sunlight and high temperatures. Keep container tightly sealed after use to prevent contamination.

8. Exposure Controls/Personal Protection

Exposure limits:

No occupational exposure limits available (supplier information).

Personal protection:

- **Eye/face:** Safety glasses recommended.
- **Skin:** Protective gloves recommended for prolonged or repeated handling.
- **Respiratory:** Not normally required under normal handling conditions.

Hygiene measures:

Wash hands after handling.

9. Physical and Chemical Properties

Appearance: Light yellow viscous liquid

Odour: Characteristic slight fatty odour

Solubility: Soluble in water and 95% ethanol; insoluble in mineral oil and vegetable oil

Viscosity: Medium to high viscosity at room temperature

Boiling Point: Approximately 240°C

Flash Point: ≥320°C

pH: 5.0–7.5 (aqueous emulsion)

Volatility: Negligible

10. Stability and Reactivity

Stability:

Stable under recommended storage and handling conditions based on available supplier information.

Conditions to avoid:

High temperatures, direct sunlight and contamination.

Incompatible materials:

No specific incompatible materials identified in the available supplier documentation.

Hazardous decomposition products:

No specific hazardous decomposition products identified in the available supplier documentation.

11. Toxicological Information

Toxicological information:

The supplier describes Polyglyceryl-10 Laurate as non-toxic and non-irritating to human skin and eyes under normal application dosage.

Likely routes of exposure:

Eye contact, skin contact and ingestion.

Symptoms:

No specific symptoms identified in the available supplier documentation.

12. Ecological Information

Ecological information:

No specific ecological data available.

Additional information:

Not expected to present harmful environmental effects when used and handled according to intended purpose.

Ecological information:

No ecological data provided in the available supplier documentation.

Environmental precautions:

Avoid uncontrolled release to the environment.

13. Disposal Considerations

Disposal:

Dispose of contents/container in accordance with local, state, and federal requirements. Prevent uncontrolled release to the environment.

14. Transport Information

Transport: Not regulated as dangerous goods.

- **IMDG:** Not hazardous
- **IATA/ICAO:** Not hazardous
- **ADR/RID:** Not hazardous

15. Regulatory Information

Regulatory information:

No specific regulatory classification information is provided in the available supplier documentation.

The supplier identifies the material as cosmetic grade and states that it has no hazardous classification for normal cosmetic use.

AICIS:

This product is supplied for cosmetic formulation use. Users are responsible for ensuring compliance with applicable Australian industrial chemical requirements.

16. Other Information

Issue date: 06/02/2026

Version: 1.0

Disclaimer:

This SDS is provided in good faith based on the supplier information available at the time of issue. Users are responsible for determining suitability for their intended use and compliance with applicable regulatory requirements.
